

AGNR Advisor News Fall 2020

Academic Advisors for the Dick & Mary Lewis Kleberg College of Agriculture and Natural Resources offer academic advising and guidance to empower students to realize their full potential. For this reason, each student has an assigned professional academic advisor so the student can establish a strong mentoring relationship with her or his advisor, whom he or she may consult on all academic and curricular issues.

COVID-19 and Academic Advising

All academic advising meetings are being held virtually via Blackboard Collaborate since the start of the COVID-19 pandemic. This is the policy of all academic advisors on the TAMUK campus until further notice by university officials. New Student Orientation for this was held in the same manner, as we are taking every precaution to keep student and advisors safe and healthy.

All classes after Thanksgiving break (November 26- 27) will transition to an online delivery.

Final exams will all be online.

Priority Registration for Spring 2021 begins Oct. 26.

- Priority One Group (includes doctoral and graduate students) Oct. 26
- Post Baccalaureate & Seniors (90-120+ earned hrs) Oct. 27
